

Africa is a big continent. Many animals live there .What animals can you see on this map? Write them below.

Read the description of the elephant. Then choose an animal and write about it.

tusk

ear

trunk

I took that picture on my safari.

The elephants are very big mammals.

They have got big, thin ears. They are 3 metres tall or more.

They eat plants, grass, leaves, roots, branches and fruit.

They have got big teeth called tusks.

They can't jump. They can't see very well but they can smell and hear very well.

They like swimming. They use their trunk like a snorkel.

Your turn (write and draw).
