

Dear children,

I left Kenya, I sailed on a ship across the ocean. I am in the Caribbean sea.

I sleep on a **hammock** under palm trees. It's fun. When I am on the ship I can climb up the sails!!!!

I can see interesting things here! I have got a diver's **goggles** and a **snorkel**.

In the ocean I can see different animals and plants.

The animals and plants that live near the **surface** of the water are **VERY** different from the ones that live at the **bottom** of the sea.

One day I saw 2 big mountains coming out of the water when I was

swimming. Can you guess what I saw? They spray water into the air and talk to each other with songs **NOT** words.

I also saw dolphins. Sometimes they sound as people laughing.

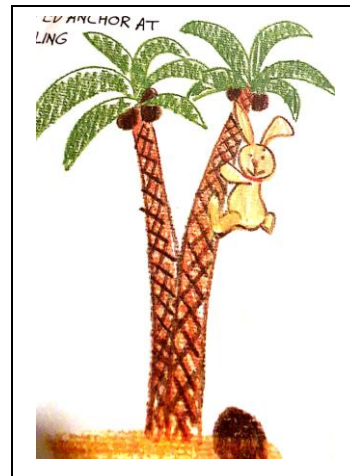

At the moment I have **dropped anchor** 10 metres from a beautiful island. I will go snorkeling soon so I can tell you what I see.

PS: I want to have some news from you. What are you doing? Where do you study? What game do you play? Is the weather hot or cold?

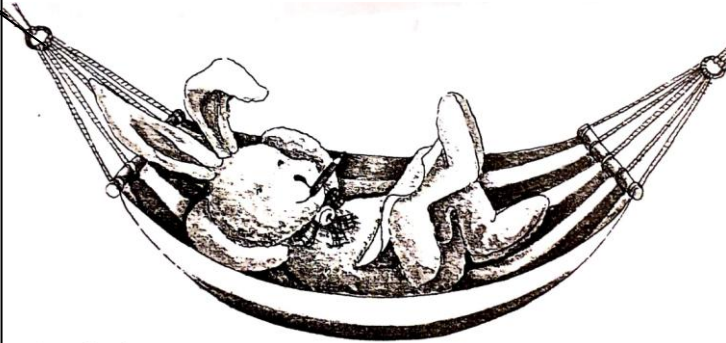

I want to receive mails from you. Can you show me some pictures?

I'm looking forward to hearing from you.

Love , **FELIX**.

*Here you have some pictures of me!!!!*
