

KENYA

The Flag of Kenya has three horizontal stripes of black, red and green. It has a white stripe between the red and black stripes and between the red and green stripes.

In the centre of the flag there is a shield with two crossed spears behind it. It is a Maasai shield.

The black colour in the flag represents the black majority of the population.

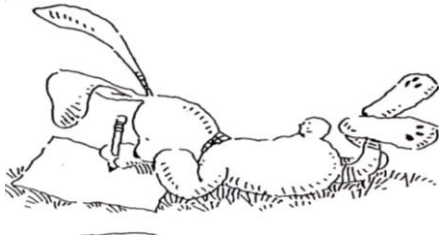

The red colour represents the blood in the fights.

The green colour represents the land.

The white colours are for peace and honesty.

The Maasai shield protects everything.

YOUR TURN: Can you invent a flag and a shield for Bariloche?

Draw them and write about the colours and explain what they represent.
