

Be a Viking

Vikings were good at making things. Felix thinks you are good at making things, too! Follow the instructions below to make a Viking helmet of your own.

Cut along dotted line

1. Cut along the dotted lines that surround the helmet.
2. Cut a headband strip out of a piece of oak tag or cardboard.
3. Adjust the headband strip to fit your head and glue or tape it together.
4. Attach the helmet to the center of the headband strip with glue or tape.
5. Wear it!
